Thanksgiving is here, and this is the month of gratitude. What are you thankful for in your life?

Take some time to reflect. If you're grateful for your family, show them by creating a plan for their future. There's no better way to show gratitude than safeguarding their future.

Think of all those who depend on you for support. What would happen if that support went away? How would your family recover? With the right plan in place, you can ensure those you are most grateful for will be taken care of.

We're grateful for you. Let us help you give thanks to those you love most.

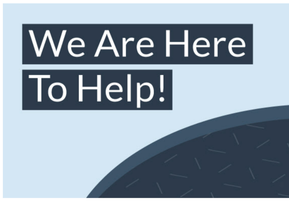
As the year winds down, this is a good time to think about your plans for the future. Take a moment to consider the following:

- What will happen to your family if you pass away unexpectedly?This is especially important if you have children under the age of 18 or if you have children with special needs

- Who will have legal custody? It's important that you choose someone that you trust, someone that is willing to care for your kids in this capacity, someone with whom you share values and parenting philosophy, etc

- How will you provide for the financial needs of your children? Do you have a life insurance policy in place?

If you need help answering these questions or would like more information on your options, let us know. We can assist with this process—please reach out to us if you'd like our help!



We're here to help with your estate planning needs. If you have questions or if you'd like to schedule a consultation, please call us at 404-419-7155 or click here: https://www.elderlawgeorgia.com/

We look forward to serving you!
